

# The iEnergy Center

- Mission
- Who are we?
- Research Opportunities

# Mission

- Uses information technology and smart sensing to create 'disruptive' improvements in the efficiency and quality of service of energy systems.

# Who are we?

- Center for Information Technology Research in the Interest of Society (CITRIS)
- Lawrence Berkeley National Laboratory (LBNL)
- California Institute for Energy and Environment (CIEE)

# Research Opportunities

- Overarching theme: system integration/coordination
  - Synchrophasors
  - Automatic demand response
  - Smart climate control
